Dear Sir,

It's wonderful to be back home to my parents, friends and all the well wishers. Fortunately my family was with me for most of the time spent in Seoul. This was the saving grace. In addition, the knowledge that you are there for us constantly garnering support from all quarters and your own personal efforts to ensure that justice is not denied to us; has been our strength in facing the unfortunate ordeal in South Korea.

Admittedly there were some trying moments during the ordeal when the cup of despair was about to overflow. Your soothing efforts and support always helped in steadying the hopelessly rocked boat. I dread to even imagine as to what our plight would have been without the unstinted help and support from you. We are most grateful to you for being there for us all along.

Warm regards,

Chetan Syam
